METRICS & OUTCOMES

Description of outcomes for each measure.

| Measurement / Metric | Associated Criterion | Relied Upon Software (If Applicable) | Outcomes | Challenges Encountered (If Applicable) |
|----------------------|----------------------|--------------------------------------|--|--|
| API Patient | §170.315(g)(7) | EMR Direct Interoperability Engine | Tests were completed using a stage environment because no customers opted to implement. Certificate updates were required to complete the testing. The application was able to receive patient lookup requests from outside systems. The application was able to identify if the outside system was authorized or not. For non-authorized systems, the application did respond with "no patient found." For authorized systems, the system did complete the lookup process and respond with the patient id if the patient was found or with "no patient found" if not. | No customers opted to implement. |
| API Data All | §170.315(g)(9) | EMR Direct Interoperability Engine | Tests were completed using a stage environment because no customers opted to implement. Certificate updates were required to complete the testing. The application was able to receive requests for all patient data categories from outside systems. The application was able to identify if the outside system was | No customers opted to implement. |
